Slogan
Snap it. Cook it. Waste nothing.

One-Sentence Elevator Pitch
EcoPlate is an AI-powered kitchen app that turns a quick photo of your fridge or pantry into delicious, zero-waste recipes using only what you already have.

App Description (~100 words)
Staring into the fridge with no idea what to make? EcoPlate turns that moment into dinner. Just snap a photo of your fridge or pantry, and our AI instantly spots what you have and creates easy, step-by-step recipes that use it up before it spoils. Missing an ingredient? The Substitution Finder suggests smart swaps. The Pantry Expiry Tracker nudges you before food goes bad, and your Green Impact Dashboard shows how much waste and money you've saved. Whether you're learning to cook, budgeting for college, or just tired of tossing groceries, EcoPlate makes cooking fun, fast, and good for the planet.

Five Key Benefits

1. **Save money:** Use what you already own instead of buying extra ingredients.
2. **Cut food waste:** Keep perfectly good food out of the trash by turning leftovers into great meals.
3. **Cook with confidence:** Build real kitchen skills with creative, stress-free recipes.
4. **Get dinner ideas fast:** Ditch the "what's for dinner?" struggle with instant recipes on your phone.
5. **See your impact:** Watch your waste and savings add up on your Green Impact Dashboard.

Call to Action
Your fridge is full of possibilities. Download EcoPlate today, snap your first photo, and cook your first zero-waste meal tonight!

If you'd like, I can write alternate slogans, a shorter app store blurb, or a version with a more playful or more professional tone.
